

ANANYA RAO

Senior Software Engineer | Backend & Distributed Systems
Bengaluru, India | ananya.rao@example.com | +91 98450 00000

SUMMARY

Backend engineer with 6 years of experience building payment and lending services in Python.

EXPERIENCE

Senior Software Engineer, Razorfin Payments (Mar 2022 - Present)

- Designed and built the refunds and settlement APIs in Python and FastAPI, handling 4M requests per day.
- Introduced Kafka-based event pipeline for transaction status updates, cutting reconciliation lag from 6 hours to 15 minutes.
- Optimised PostgreSQL queries and partitioned the ledger table, reducing p95 latency by 40%.
- Mentored three junior engineers and led design reviews for the payouts team.

Software Engineer, LendQuick (Jul 2019 - Feb 2022)

- Built loan-disbursal microservices with Django REST Framework and PostgreSQL.
- Containerised services with Docker and deployed them to AWS ECS; set up CI/CD with GitHub Actions.
- Implemented RabbitMQ workers for asynchronous KYC verification.

Associate Engineer, Infosys (Jul 2018 - Jun 2019)

- Maintained internal Java reporting tools and wrote SQL reports.

EDUCATION

B.E. Computer Science, RV College of Engineering, 2018

SKILLS

Python, FastAPI, Django, PostgreSQL, Redis, Kafka, RabbitMQ, Docker, AWS (ECS, RDS, S3), GitHub Actions, Prometheus, Grafana
